Research Experiences for Undergraduates Program

Summer 2007

The Computer Science Department at Ithaca College is again hosting an NSF-sponsored Research Experiences for Undergraduates program during the summer of 2007. This program provides the opportunity to be involved with research in the fields of Virtual Reality, Robotics, and Fractal Analysis and Visualization.

Student participants will work on a research team with other students and a faculty mentor to carry out a research project. Research teams will present the final results of their work at an open poster session during the final week of the program and, where appropriate, at their home institutions and/or scholarly venues such as conferences.

Program Details:

- Program runs from May 30 through August 01, 2007
- Students will receive (for the 9 week period):
 - \$3,800.00 stipend
 - On-campus housing and meals
 - Up to \$400.00 travel reimbursement

Information and application materials are available on our website: <http://www.ithaca.edu/mathcs/REU/>

We are requesting completed applications by April 13, 2007.

If you have questions about the program, please feel free to contact us:
