

Dear Prof. Luis Lupian and RoboCup Humanoid League Technical Committee,

According to the team qualification acceptance letter, I am writing this letter for the commitment that our team (HuroEvolution AD) will participate in the competition of RoboCup 2012 in Mexico City. In addition, we recommend Mr. Yu-De Lien to serve as a referee in the RoboCup Humanoid League.

Finally, we deeply appreciate your kind acceptance of our team qualification. We are able to finish the team-registration process within this month. Please also advise us how to register our team online. I look forward to hearing from you. For any further questions, please feel free to contact me. Thank you very much.

Sincerely yours,

Chung-Hsien Kuo
