

INTRODUCING THE MS IN COMPUTER SCIENCE

Computer science is everywhere today. Build on your education and work experience. Enhance your professional and career development.

Earn a degree from one of the nation's top-ranked computer science departments.

Carnegie Mellon University's Computer Science Department is now offering a new master of science degree for any student who seeks advanced coursework in computer science. A bachelor's in computer science is not required.

Application deadline:
December 15, 2011
